

CURRICULUM VITAE

Rhodri S Jones

BSc Hons Architectural Technology (First Class)

PERSONAL SUMMARY

A professional and passionate individual with excellent practical skill and knowledge clearly illustrated through academic success, most recently in graduating in Architectural Technology with First Class Honours.

With over 3 years of experience in the architectural sector, I have proven both my competencies and dedication to continually develop functional, innovative and practical architectural design solutions.

RSJ DESIGN – Architectural Services

Following my academic successes and previous working experience, I am now the acting principle of RSJ Design Architectural Services, established in 2012, which offers services to architectural/construction based businesses as well as private clients.

A confident, mature individual, I pride myself on my attention to detail and quality of my output.

CURRICULUM VITAE

PROFESSIONAL EXPERIENCE

Architectural Technician; Kinver Kreations Ltd – 2009/2011

Project Sectors: Residential, Commercial & Light Industrial

Working on a consultancy basis with this small firm based in west Wales, this practice worked on a wide variety of projects across wales.

Services:

- ✓ Existing building surveying and drafting
- ✓ Developing design concepts and attending client meetings
- ✓ Creating planning regulation drawings
- ✓ Creating building regulation and construction detail drawings
- ✓ Involved with all stages of tendering process
- ✓ Involved in works ranging from small domestic extensions, to large multiple housing developments and a commercial sports/community centre design and development
- ✓ Liaising with industry based professionals, i.e. engineers, surveyors, local authority & building control
- ✓ Writing designed based technical reports
- ✓ Communication and telephone assistance
- ✓ Arranging and attending site visits and inspections

This placement was critically important to my development and understanding of the industry and ever since leaving the practice to complete my academic studies I have remained in professional contact.

AREAS OF PROFESSIONAL EXPERTISE

- Architectural design
- Detailed drafting
- Planning regulations
- Building regulations
- Conceptual analysis
- Feasibility studies
- Measured building surveying
- Site level surveying
- Sustainable and environmental solutions
- Site inspections
- Client appraisal
- 3D photo realistic modelling
- Spatial 3D walk-through animations

CURRICULUM VITAE

PROFESSIONAL EXPERIENCE

Architectural Consultancy; IDEA Ltd – 2011/ONGOING

Project Sectors: Residential & Commercial

This small practice of RIBA architects, based in south Wales, work on unique projects offering innovative design solutions to clients. Working on a consultancy basis for this practice has been a great in-sight to sustainable and innovative design, with the application of many new-age materials and techniques.

Services:

- ✓ ICT based CAD drafting (3D & 2D)
- ✓ Photo realistic rendering and modelling
- ✓ Existing building surveying and drafting
- ✓ Client communication and site inspections

RSJ Design is currently working on a consultancy basis alongside IDEA Architects in restoring a 4 storey commercial premises in Aberystwyth where RSJ Design's surveying and drafting capabilities are being applied along with IDEA architects restoration expertise to revive this important element within the townscape.
